

Information on local plants

Sutherland Group members use the following sources of information about local plants. Members can borrow books from our library at our monthly meetings.

Field Guide to the Native Plants of Sydney

Les Robinson, 3rd edition 2003.

Over 1,370 species described and illustrated with black and white drawings.

Available in Council libraries and bookshops.

Native Plants of the Sydney Region

Alan Fairley and Philip Moore. Third edition 2010.

Colour photographs and descriptions of over 1,500 species.

Available in Council libraries and bookshops.

Sutherland Shire Plants: A Guide to Indigenous Plant Species suitable for Landscape and Revegetation Projects

Sutherland Shire Council.

Lists and descriptions of native plants for Sutherland Shire gardens.

Available in Council libraries or download from www.sutherland.nsw.gov.au

Coastal Plants of the Royal National Park: An Interactive Identification Guide

Australian Plants Society, Sutherland Group, 2006.

A CD-Rom with 1,200 photos of over 300 plants found along the Coast Track of the RNP.

Available for \$20 at <http://sutherland.austplants.com.au> and local outlets including RNP.
